

History

Phoenix Solar Singapore was established in December 2006 as a joint-venture between local Singapore partners and Phoenix Solar AG. Since incorporation, Phoenix Solar Singapore has become the market leader in turnkey PV solutions for residential, commercial, institutional and industrial buildings in Singapore and Malaysia. With its regional headquarters in Singapore, Phoenix Solar Singapore is poised to capture the strong growth market of solar PV in the Asia Pacific region.

Phoenix Solar AG was established on 18 November 1999 and was entered in the commercial register on 07 January 2000. Its headquarters are located in Sulzemoos, near Munich, with a branch in Ulm, sales offices all over Germany and subsidiaries in Southern Europe, USA, Asia and Australia. In the frame of the increasing internationalisation, the company changed its name from Phönix SonnenStrom AG to Phoenix Solar AG in June 2007.

Phoenix Solar AG, which has its headquarters in Sulzemoos near Munich, is a leading international photovoltaic system integrator. The Group develops, plans, builds and operates large-scale photovoltaic plants and is a specialist wholesaler for turnkey photovoltaic power plants, solar modules and accessories. With sales operations throughout the whole of Germany and subsidiaries worldwide, the company has sold solar modules with a peak power of more than one gigawatt since it was first founded. The shares of Phoenix Solar AG (ISIN DE000A0BVU93) are listed on the official market (Prime Standard) of the Frankfurt Stock Exchange.
