

Press Release

Phoenix Solar AG presents its products and services at Intersolar Europe 2011

- Visitors can inform themselves of the products and services offered by Phoenix Solar in Hall B5, Stand 340

Sulzemoos 2 May 2011 / Phoenix Solar AG (ISIN DE000A0BVU93), a leading photovoltaic system integrator listed on the German TecDAX, will be exhibiting at the Intersolar Europe which will take place in the New Munich Trade Fair Centre from 8 to 10 June 2011. Visitors can inform themselves about the wide range of products and services offered by Phoenix Solar in Hall B5, Stand 340. The company, which is headquartered in Sulzemoos near Munich, plans, builds and operates large photovoltaic power plants and is a specialist wholesaler for turnkey solar electricity power plants, solar modules and accessories.

"From our standpoint, the Intersolar Europe is the sector's most important trade fair worldwide", said Dr. Andreas Hänel, Chief Executive Officer of Phoenix Solar AG. "The tragic events in Fukushima have made it patently clear that we need to build up renewable energies such as photovoltaics much more swiftly and use them extensively. To enable our customers to tap the power of the sun we offer them manifold solutions customised to suit their individual needs. Solar power plants built by Phoenix Solar all over the world supply thousands of households with sustainable energy. We would be happy for visitors to the trade fair to come and convince themselves personally of our know-how and expertise."

The focal point of exhibiting at the trade fair is on the services Phoenix Solar offers its customers and sales partners. The offering comprises full-line consultancy and services for photovoltaics, from planning, across turnkey implementation through to the operation of large roof-integrated or ground-mounted photovoltaic plants. Along with support for the financing of solar power plants, the

portfolio also includes maintenance and repair. The company's sales partners also benefit first and foremost from an extensive partner service. This also includes logistics services, technical training in sales and installation as well as a hotline dedicated to answering questions swiftly and straightforwardly.

In addition, Phoenix Solar will be presenting its PVisual configuration software which enables engineers and installers to plan rooftop photovoltaic systems quickly and intelligently. This software comprises the solar modules, mounting systems and inverters included in the Phoenix Solar product portfolio, making it possible for the installer to plan and design the system for the customer in one workflow and perform sound profitability calculations.
